

Drivalia becomes Cabify's mobility partner with a new fleet of nearly 100 electric vehicles in Madrid

- The deal is part of Drivalia's integrated mobility solutions and aligns with the CA Auto Bank Group's ESG strategy focused on sustainable mobility and transport decarbonization.

Madrid, July 6, 2026

Drivalia, the rental and mobility company of the CA Auto Bank Group, has been selected as a mobility partner by Spanish mobility company Cabify. As part of this collaboration, Drivalia is providing a fleet of nearly 100 fully electric vehicles for ride-hailing (VTC) services in Madrid. The agreement marks the beginning of a strategic partnership between the two companies aimed at advancing the electrification of urban mobility in Spain.

The addition of this fleet reinforces Drivalia's **ESG commitment**, in line with the CA Auto Bank Group Sustainability Plan, which identifies sustainable mobility and transport decarbonization as strategic priorities. Through financing and mobility solutions designed to accelerate electric vehicle adoption, the Group contributes to emissions reduction and the development of more sustainable transportation models in urban environments.

"Financial and operational support is crucial to accelerating fleet renewal and electrification, helping operators comply with current regulatory and environmental requirements. Our integrated mobility solutions are designed to meet the needs of large operators seeking scalable and flexible solutions in high-demand urban environments. Our partnership with Cabify allows us to combine our strengths with those of an operator that shares our commitment to sustainable innovation and tangible environmental progress," said **Raúl García, CEO of Drivalia Spain**.

Decarbonizing Urban Mobility

The fleet consists of **nearly 100 Kia EV4 Fastback Business Long Range vehicles**, carrying Spain's DGT "Zero Emissions" label and designed to meet the demands of intensive urban mobility.

The vehicles supplied by Drivalia operate under a long-term rental agreement with Cabify, lasting **48 months** and including an annual mileage allowance of **80,000 kilometers per vehicle**, in line with the operational requirements of on-demand mobility services in major cities such as Madrid.

Scaling Efficient Mobility Solutions

This transaction strengthens Drivalia's and CA Auto Bank's commitment to electrification as a core pillar of their business in Spain. By integrating tailored financing, leasing, and vehicle management solutions, the Group enables corporate fleets and mobility platforms to scale their operations sustainably. Furthermore, this first joint experience with Cabify opens the door to exploring new opportunities and highlights how comprehensive operational solutions are essential to advancing more efficient urban transportation.

CA Auto Bank S.p.A.

*CA Auto Bank is a universal bank wholly owned by **Crédit Agricole Personal Finance & Mobility**. It operates as an independent, multi-brand player in vehicle financing and leasing, as well as in the mobility sector.*

CA Auto Bank offers a comprehensive range of financing, rental, and insurance solutions. Its lending, leasing, long-term rental, and mobility financing products are specifically designed for dealer networks, private customers, and corporate fleets.

*The bank operates in **19 European countries** (Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Norway, Poland, Portugal, Spain, Sweden, Switzerland, and the United Kingdom), as well as in Morocco, either directly or through branches, and employs more than **2,600 people**.*

*Through **Drivalia**, the Group's rental, leasing, and mobility company, the bank provides a wide range of mobility solutions, from electric car-sharing services to innovative vehicle subscription programs and short-, medium-, and long-term rental options. Drivalia is committed to delivering comprehensive mobility solutions that combine flexibility, a seamless digital experience, on-demand services, and sustainability.*

*In June 2019, the company launched the **Mobility Store** network, a chain of physical locations where customers can access all mobility services in one place. Following the opening of its first fully electrified Mobility Store at Turin-Caselle Airport in 2020, and the subsequent rollout of many more locations, Drivalia has established itself as one of Europe's leading sustainable mobility operators.*

*With more than **1,900 charging stations** installed across its network to date, the company now operates the largest private electric charging network in Italy. The electrification process will continue throughout 2026 in all European countries where Drivalia operates.*
